Born 29 June 1991, Ukhta, Russia · married, no children

RESEARCH INTERESTS

Nonlinear partial differential equations and their applications: hyperbolic conservation laws (Riemann problem, admissibility of shocks and contact discontinuities, uniqueness), fluid dynamics in porous media (viscous and gravitational fingering, incompressible porous medium equation), reaction–convection–diffusion equations (traveling waves, propagating terraces); spectral theory and L_2 -small ball probabilities of Gaussian processes; applications to enhanced oil recovery and mathematical biology.

POSITIONS

- 2025–PRESENT **Assistant Professor (Professora Doutora, RDIDP)**, Department of Mathematics, IME-USP, São Paulo, Brazil. Accredited advisor of the Graduate Program in Mathematics.
- 2023–2025 **Assistant Professor**, Department of Mathematics, PUC-Rio, Rio de Janeiro, Brazil (“Projeto Paz”)
- 2021–2023 **Postdoctoral fellow (Pós-doutorado de Excelência)**, Instituto de Matemática Pura e Aplicada (IMPA), Rio de Janeiro, Brazil; researcher at Centro PI, IMPA.
Mentors: Dan Marchesin, Bradley J. Plohr
- 2017–2021 **Researcher**, Chebyshev Laboratory, Saint Petersburg State University, Russia. Member of the long-term industrial project on enhanced oil recovery with PJSC Gazprom Neft (2018–2021)
- 2012–2021 **Lecturer**: Department of Mathematics and Computer Science, Saint Petersburg State University (2018–2021); Department of Mathematics and Information Technology, Saint Petersburg Academic University (2014–2018); Institute of Physics, Nanotechnology and Telecommunications, Saint Petersburg Polytechnic University (2012–2015). Saint Petersburg, Russia

EDUCATION

- 2018 **PhD in Mathematics and Physics (Candidate of Sciences)**, St. Petersburg State University, Russia. Thesis: *Exact L_2 -small ball asymptotics for finite-dimensional perturbations of Gaussian processes* (in Russian; synopsis). Supervisor: Alexander I. Nazarov
- 2013 **MSc in Mathematics**, Chair of Mathematical Physics, St. Petersburg State University, Russia

AWARDS AND HONOURS

- 2019 “Young Mathematician” Prize of the St. Petersburg Mathematical Society
- 2018–2019 Gazprom Neft Scholarship, Chebyshev Laboratory
- 2018 Winner of the 22nd Möbius Contest, category “Undergraduates and graduates”
- 2009 Euler Fellowship for undergraduate students
- 2005–2008 Winner of city-level olympiads in mathematics, physics, chemistry and informatics, and of the republic-level mathematics olympiad (Komi Republic, Russia)

GRANTS AND FUNDING

- 2026–2029 **PI, FAPESP Regular Research Grant (Auxílio à Pesquisa Regular) 2026/07916-0**
R\$ 600,000 ($\approx$ US\$ 115,000)
Wave propagation in conservation laws and reaction–convection–diffusion equations
Includes three scholarships for IME-USP students (undergraduate research, MSc and PhD)
- 2025–2027 **PI, Programa de Apoio a Novos Docentes, University of São Paulo**
R\$ 50,000 ($\approx$ US\$ 9,600)
Wave propagation in fluid dynamics and mathematical biology

- 2025 **PI**, USP Call for Support to Scientific Events (Edital de Apoio a Eventos Científicos)
Funding for SAnPA – Symposium on Analysis, PDEs and Applications, IME-USP R\$ 14,000 ($\approx$ US\$ 2,700)
- 2025–2028 **Team member**, CNPq Universal 403675/2025-1 (PI: Wladimir Neves, UFRJ) R\$ 210,000 ($\approx$ US\$ 40,000)
Challenges and advances in the study of multiphase flow in porous media
- 2024–2025 **Team member**, CNPq Universal 406460/2023-o (PI: Wladimir Neves, UFRJ) R\$ 52,500 ($\approx$ US\$ 10,100)
Multiphase flow in porous media
- 2024–2025 **PI**, FAPERJ APQ 1 – Auxílio Básico à Pesquisa E-26/210.700/2024 R\$ 14,500 ($\approx$ US\$ 2,800)
Fluid dynamics in porous media
- 2021 **Co-PI**, Russian Science Foundation (RSF) grant 21-11-00047
Stochastic processes and fields with application to data analysis
- 2019–2021 **Team member**, RSF grant 19-71-30002
Analysis, geometry, mathematical physics and applications
- 2019–2020 **Team member**, President of Russia grant MD-1791.2019.1
Parabolic equations describing displacement of viscous fluids in porous media and systems with hysteresis
- 2017–2018 **Team member**, RSF grant 17-11-01003
Asymptotic spectral analysis: gaps, near-threshold anomalies, “invisibility” and eigenvalues
- 2016–2018 **Team member**, RFBR grant 16-01-00258a
Approximation of stochastic processes and functionals of them
- 2013–2016 **Team member**, Saint Petersburg State University grant 6.38.670.2013
Partial differential equations and applications

Work in progress

(with S. Tikhomirov, Ya. Efendiev)

Infinite cascade of traveling waves in a nonlocal model of gravitational fingering
in preparation

(with C. Furtado, undergraduate student at IME-USP)

Classification of propagating terraces with N waves in the two-tubes model for Lax–Friedrichs discretization
in preparation

Convergence to a pair of diverging traveling waves for two coupled Burgers-type equations
in preparation

Conference proceedings and reports

R2 (with S. Tikhomirov, Ya. Efendiev)

On the linear growth of the mixing zone in a semi-discrete model of the incompressible porous medium equation
Oberwolfach Report 2409 “Hyperbolic Balance Laws: Interplay between Scales and Randomness”, 2024
MFO

R1 (with S. Tikhomirov, F. Bakharev, A. Groman, A. Kalyuzhnyuk, A. Enin, K. Kalinin, N. Rastegaev)

Calculation of graded viscosity banks profile on the rear end of the polymer slug
Paper SPE-206426-MS, SPE Russian Petroleum Technology Conference, October 2021
doi:10.2118/206426-MS

Patents and registered software

P2 (with O. Chebyshova, I. Koltsov, M. Bondar, G. Sherbakov, S. Milchakov, D. Apushkinskaya, F. Bakharev, S. Tikhomirov, K. Kalinin, S. Matveenko, D. Pavlov, N. Rastegaev)

Express simulator of enhanced oil recovery methods

Registered computer program RU2023617893 (17/04/2023), Federal Service for Intellectual Property of the Russian Federation

P1 (with A. Groman, F. Bakharev, S. Tikhomirov, N. Rastegaev, A. Enin, K. Kalinin)

Method for enhanced oil recovery

Patent RU 2772808 C1, IPC E21B 43/16, C09K 8/58; application no. 2021133106 of 15/11/2021, published 25/05/2022. Applicant: LLC Gazpromneft-Technological Partnerships

TEACHING

IME-USP, São Paulo, Brazil (2025–present; lectures in Portuguese)

- 2026.2 MAT0147 *Calculus II for Economics* (BSc, 6 credits, 91 students)
- 2026.1 MAT0236 *Differentiable Functions and Series* (BSc in Computer Science, 4 credits, ≈95 students)
MAT5798 *Measure and Integration* (graduate programme, ≈30 students)
- 2025.2 MAT0226 *Differential Equations I* (BSc in Mathematics, 6 credits, ≈45 students)
- 2025.1 MAT2453 *Calculus I* (BSc in Physics, evening, 6 credits, ≈85 students)
MAT0105 *Analytic Geometry* (Licenciatura, evening, 4 credits, ≈80 students)

PUC-Rio, Rio de Janeiro, Brazil (2023–2025)

- 2024.2 *Semigroups for linear evolution equations*, lectures and seminars (MSc/PhD)
- 2024.1 *Proofs from THE BOOK*, lectures and seminars (BSc/MSc) [page](#)
- 2023.2 *Introduction to Fourier analysis*, lecture course (MSc/PhD)
- 2023.1 *Shock waves in conservation laws and reaction–diffusion equations*, lecture course (MSc) [page](#)

St. Petersburg State University, Department of Mathematics and Computer Science, Russia (2018–2021)

- 2021.1 Tutorials *Calculus of variations* (BSc) [materials](#)
- 2020.2 Tutorials *Probability theory* (BSc) [materials](#)
- 2020.1 Tutorials *Functions of a complex variable (Calculus IV)* (BSc) [materials](#)
- 2018–2019 Tutorials *Calculus I–III* (BSc), four semesters [materials](#)

Other teaching

- NOV 2019 Teaching assistant, *Dynamical systems* (MSc), COMSATS University Islamabad, Lahore Campus, Pakistan — ICTP-CUI Visiting Scholars Program
- JAN 2019 Mini-course *Random walks* (4 lectures) for high-school students, Educational Programme in Mathematics and Computer Science, Sirius Educational Centre, Sochi, Russia
- 2014–2018 Tutorials *Calculus I–IV* (BSc in Physics), eight semesters, St. Petersburg Academic University, Russia [materials](#)
- 2012–2014 Tutorials *Partial differential equations I–II* (BSc in Physics), four semesters, St. Petersburg Polytechnic University, Russia
- 2012–2017 Olympiad mathematics at *Formulo de Integreco*, international educational centre for gifted high-school students (seven winter/summer camps in Russia and abroad; online courses for students from non-capital regions of Russia) [materials](#)

SUPERVISION OF STUDENTS

- 2027– **PhD**: Rayssa Oliveira (IME-USP), FAPESP scholarship; starts January 2027
- 2023–2025 **MSc**: Maria Luisa Pasinato (PUC-Rio), co-supervised with Boyan Sirakov. Defended August 2025
- 2025– **Undergraduate research (IC)**: Caio Alexandre Paoli Furtado (IME-USP) — propagating terraces in the two-tubes model; PUB scholarship 09/2025–09/2026, FAPESP scholarship from 11/2026
- 2025– **Undergraduate research (IC)**: João Pedro Alves de Lima (IME-USP) — introduction to analysis and differential equations; PICME/CNPq scholarship. Poster at 34° SIICUSP (2026)
- 2025–2026 **Undergraduate research (IC)**: Lucas Costa Teles (IME-USP) — introduction to analysis and differential equations; PIBIC scholarship 09/2025–08/2026. Poster at 34° SIICUSP (2026)
- 2026 **Short undergraduate research project**: Fernando Martins (IME-USP), February–March 2026

Thesis committees

- PhD Erika Ortiz (IMPA, March 2025); Júlia Domingues Lemos (IMPA, 2022)
- MSc Giulia Carvalho Fritis (UFJF, 2023); Temirlan Abildaev (St. Petersburg State University, 2020)
- BSc Tatyana Moseeva (SPbSU, 2020); Alexander Tarasov (SPbSU, 2019)

ORGANISATION OF CONFERENCES AND SEMINARS

2026	Local organising committee, 7th BRICS Conference in Mathematics, IME-USP, São Paulo, 18–21 August 2026; organiser of the session “Mathematical and Computational Modelling”
2026	Co-organiser of the mini-symposium “Modelling of complex phenomena in fluid dynamics” at CNMAC 2026, Presidente Prudente, Brazil
2025	Co-organiser of SAnPA – Symposium on Analysis, PDEs and Applications, IME-USP, São Paulo
2024	Co-organiser of CRANED, joint colloquium in analysis and PDEs of the Rio de Janeiro universities
2024	Co-organiser of the Q.T.P. seminar (“Que Termina em Pizza”) and of MINUTNIK, a competition of 3-minute talks, PUC-Rio
2022	Co-organiser of the Applied and Computational Mathematics seminar, IMPA
2019–2022	Co-organiser of the seminar “Industrial Mathematics”, Chebyshev Laboratory, St. Petersburg (YouTube channel)

ACADEMIC SERVICE

2025–	Member of the Council of the Department of Mathematics, IME-USP
VISITORS	Hosted at IME-USP: Yalchin Efendiev (Texas A&M University) and Ciro Campolina (Scuola Normale Superiore, Pisa)
REFEREE	Acta Applicandae Mathematicae (2026), Physics of Fluids (2026), Journal of Dynamics and Differential Equations (2025), Nonlinearity (2023)
SOCIETIES	Brazilian Mathematical Society (SBM); St. Petersburg Mathematical Society

INDUSTRIAL EXPERIENCE

2018–2021	Member of the long-term project <i>Development of tools for determining the optimal enhanced oil recovery (EOR) method</i> , Chebyshev Laboratory (St. Petersburg State University) with PJSC Gazprom Neft. Led a sub-team of 2–5 people on polymer and surfactant flooding models; outcomes include a patent and a registered computer program (see Publications) and laboratory Hele-Shaw cell experiments (link)
-----------	---

OUTREACH

2015	Public lecture “Las matemáticas en la obra de Antoni Gaudí” (in Spanish), cultural centre Adelante, St. Petersburg (slides)
------	---

SCHOOLS ATTENDED

JUL 2023	Summer school “Deterministic and random features of fluids”, EPFL, Lausanne, Switzerland
JUL 2014	CIME school on PDEs and Geometric Measure Theory, Italy
JUL 2010	XIII Diffiety School on Mathematics, Santo Stefano del Sole, Italy
JUL 2009	XII Diffiety School on Mathematics, Santo Stefano del Sole, Italy

LANGUAGES AND SKILLS

RUSSIAN	native
ENGLISH	fluent
PORTUGUESE	fluent (Celpe-Bras, Nível Avançado, July 2024)
SPANISH	intermediate
SOFTWARE	COMSOL Multiphysics, MATLAB, Python, Git, $\LaTeX$; numerical methods: FEM, FVM, FDM

CONFERENCES AND WORKSHOPS

31 talks and 6 posters at conferences and workshops in Brazil, Germany, Russia, the USA, Greece, Spain, Sweden, Singapore, India and China, including HYP 2022 (Málaga), the Oberwolfach workshop on hyperbolic balance laws (2024), Equadiff 2024 (Karlstad), the Mathematical Congress of the Americas 2025 (Miami) and the AIMS Conference 2026 (Athens).

— marks participation without a talk or poster.

2027

JUL	TALK	(<i>planned</i>) 36° Colóquio Brasileiro de Matemática (CBM), IMPA, Rio de Janeiro, Brazil Thematic session in honour of the 80th birthday of Professor Dan Marchesin
FEB	TALK	(<i>planned</i>) ICMC Summer Meeting on Differential Equations, São Carlos, Brazil Session “Conservation laws and transport equations”
JAN	TALK	(<i>planned</i>) PA2IN Conference: PDE, Analysis, Artificial Intelligence and Numerics, IMPA, Rio de Janeiro, Brazil

2026

OCT	PLENARY	(<i>planned</i>) VII Workshop on Fluids and PDE, Recife, Brazil
SEP	ORGANISER	CNMAC 2026 – Congresso Nacional de Matemática Aplicada e Computacional, Presidente Prudente, Brazil Mini-symposium “Modelling of complex phenomena in fluid dynamics”
AUG	ORGANISER	7th BRICS Conference in Mathematics, IME-USP, São Paulo, Brazil (local organising committee) Organiser of the session “Mathematical and Computational Modelling”
AUG	PLENARY	Congress <i>60 years of the Department of Mathematics of PUC-Rio</i> , Rio de Janeiro, Brazil
JUL	TALK	AIMS Conference on Dynamical Systems, Differential Equations and Applications, Athens, Greece. Two talks Special sessions SS6 “Propagation dynamics of PDEs: recent progress and trends” and SS12 “Propagation phenomena in reaction–diffusion systems”
MAY	TALK	VI Congresso Brasileiro de Jovens Pesquisadoras e Pesquisadores em Matemática Pura, Aplicada e Estatística, Teresina, Brazil. Two talks Thematic sessions “Probability and Mathematical Physics” and “Conservation Laws and Transport Theory”
FEB	TALK	ICMC Summer Meeting on Differential Equations, São Carlos, Brazil Session “Conservation laws and transport equations”

2025

NOV	TALK	UFSCar Workshop on PDEs, São Carlos, Brazil Session “Dynamics of differential equations and applications”
OCT	ORGANISER	SAnPA – Symposium on Analysis, PDEs and Applications, IME-USP, São Paulo, Brazil (co-organiser)
JUL	TALK	Mathematical Congress of the Americas (MCA 2025), Miami, USA Session “New developments in mathematical fluid dynamics”
JUN	TALK	2ª Semana da Pura, IME-USP, São Paulo, Brazil
JAN	—	DelliRio, UFRJ, Rio de Janeiro, Brazil

2024

NOV	—	ENAMA – Encontro Nacional de Análise Matemática e Aplicações, Rio de Janeiro, Brazil
SEP	POSTER	DinAmicI in Rio: Dynamics, Applications, Interactions, IMPA, Rio de Janeiro, Brazil poster
AUG	TALK	CLAM VII – Congresso Latino-Americano e do Caribe de Matemática, João Pessoa, Brazil Session “Conservation laws: mathematical analysis and industrial-based models” slides
JUN	—	Mostly Maximum Principles, PUC-Rio, Rio de Janeiro, Brazil
JUN	TALK	Equadiff 2024, Karlstad, Sweden Mini-symposium “Mathematics of porous media” slides
JUN	POSTER	SPP 2410 Workshop: Analysis of Dissipation in Inviscid and Compressible Fluid Dynamics, Konstanz, Germany poster
FEB	TALK	Oberwolfach workshop “Hyperbolic Balance Laws: Interplay between Scales and Randomness”, Germany slides
FEB	TALK	Spring School “Multiplicative chaos and cascades”, TU Darmstadt, Germany slides

JAN	TALK	ICMC Summer Meeting on Differential Equations, São Carlos, Brazil slides
2023		
OCT	TALK	VI Workshop on Fluids and PDE, Campinas, Brazil slides
JUN	—	Shocking Developments: New Directions in Compressible and Incompressible Flows (conference in honour of Alexis Vasseur), MPI MiS, Leipzig, Germany
MAY	TALK	Mini-conference dedicated to the 60th birthday of A. I. Nazarov (online) slides
FEB	TALK	Multiscale Analysis and Methods for Quantum and Kinetic Problems, IMS, National University of Singapore slides · video
JAN	TALK	13th Americas Conference on Differential Equations and Nonlinear Analysis & ICMC Summer Meeting, São Carlos, Brazil slides
2022		
OCT	—	Conference IMPA 70 years and International Conference on Dynamical Systems (60th birthday of Marcelo Viana), Rio de Janeiro, Brazil
JUL	POSTER	O. A. Ladyzhenskaya Centennial Conference on PDEs, St. Petersburg, Russia poster
JUL	POSTER	Hyperbolic Balance Laws & Beyond, Magdeburg, Germany poster
JUN	TALK	HYP 2022 – International Conference on Hyperbolic Problems, Málaga, Spain slides
MAY	—	Workshop: Branching systems, reaction-diffusion equations and population models, CRM, Montréal, Canada (online)
2021		
DEC	PLENARY	International conference <i>Probabilistic methods in analysis</i> , Sirius, Sochi, Russia slides
DEC	TALK	Workshop “Nonlinear PDEs and Modelling”, St. Petersburg, Russia slides
AUG	TALK	InterPore 2021, Brazilian Chapter (online) slides
JUN	TALK	InterPore 2021 (online) slides
2019		
AUG	POSTER	Third ZiF Summer School “Randomness in Physics and Mathematics: From Stochastic Processes to Networks”, Bielefeld, Germany poster
MAY	TALK	Stochastic Models II, Euler Institute, St. Petersburg, Russia slides
2018		
JAN	TALK	Third Indo-Russian Meeting in Probability and Statistics, Bangalore, India slides
2017		
DEC	TALK	St. Petersburg Winter Conference on Probability Theory and Mathematical Physics, PDMI–MIAN slides
JUN	TALK	Symposium on Probability Theory and Random Processes, St. Petersburg, Russia slides
APR	POSTER	International Conference on Partial Differential Equations, Silk Road Mathematics Center, Beijing, China poster
2016		
JUN	TALK	Days on Diffraction 2016, St. Petersburg, Russia slides
MAY	TALK	2nd Russian-Indian Joint Conference in Statistics and Probability, St. Petersburg, Russia slides
2015		
SEP	TALK	Yu. V. Linnik Centennial Conference, St. Petersburg, Russia
JUL	TALK	7th St. Petersburg Conference in Spectral Theory, Russia slides

SEMINAR AND COLLOQUIUM TALKS

28 talks at seminars and colloquia (2015–2026): IME-USP, ICMC-USP, IMPA, PUC-Rio, UFRJ and UFF in Brazil; Freie Universität Berlin, WIAS Berlin, TU Darmstadt, TU Dortmund, LMU Munich and TU Munich in Germany; Moscow State University, St. Petersburg State University and PDMI RAS in Russia; UC Davis in the USA.

2026
